The Course Tutors

The Drawing Academy is founded by professional fine artists and art teachers – Vladimir London and Natalie Richy.

Combined, they spent over 20 years studying art and have more than 47 years of professional experience in art. Now you can benefit from their extensive knowledge and creative experience.

Vladimir is an internationally published author of many fine art books.

Natalie Richy is also the founder of the Web Art Academy – an online course on traditional oil painting techniques.

Our Vision, Purpose and Mission

We have the Vision that fine art portrays the beauty and meaning in life. And we created the Drawing Academy with the Purpose to promote realistic fine art and continue the Old Masters' traditions.

Our Mission is to give you proper and professional art education, teach you traditional art skills and methods, and help you develop your individual art style based on the values and legacy of classical fine art.

The Drawing Academy Course

Is this Course for You?

Are you a beginner, intermediate or advanced artist? Then yes, this course is for You. The Drawing Academy is designed in such a way that whatever level you're at, you will learn something new to improve your drawing skills.

The course is very friendly for beginners, yet sophisticated enough for advanced students in developing their art skills. You will gradually progress from basic topics to comprehensive lessons.

Whether you have art related questions, need assistance with your creative progress, or just simply want an opinion on an artwork you've done, Drawing Academy tutors are ready to help. You can send your questions and drawings for critique at any time.

This personal support is unlimited, going beyond the course duration.

Drawing Academy Course Assignments

In the course you will get 45 video lessons, high-resolution image references, bonus videos and downloadable fine art books. If you learn best by strictly following coursework, we have assignments for every topic in the course. If you have your own subject matter and themes to draw from, we support you in this as well. The course is totally flexible in this respect. Our mission is to give you necessary knowledge and know-how, so you can use them to improve your drawing skills.

Assignments are there if you need them in addition to unlimited personal support by the Academy tutors.

Drawing Academy Diploma of Excellence

After three months you will receive the Academy Diploma in your name.

This Diploma commemorates your completion of the course. However, it is not a token give-away.

We want to make sure you benefit from the course and want to see your creative progress.

We'll be asking to see examples of your drawings created before and after the course.

What Happens After Three Months?

They say, and our experience can confirm, that every good skill takes 10,000 hours to master. Will you become a great fine artist in three months? Maybe it will take longer. That is why we give you lifetime access to the Drawing Academy Course. In three months you will learn a great deal about traditional drawing techniques. We will support you all the way. Our personal tutoring is unlimited and will continue beyond the three-month period.

From time to time we add new videos and books to the Drawing Academy course. You will receive all future updates free of charge even after the course completion. Yes, that's right – at no extra cost for a lifetime.

Here's what Drawing Academy students say:

"I am very thankful for being able to be a part of your wonderful art program, I enjoyed every part of every single lesson.

You have been great role models for me, you have taught me to be able to see the kind of passion you put in your art work, and I am more than willing to do this on my side with the skills and abilities you have shared with me.

These classes were more than worth it, I learned more than I thought I could learn, thank you. You have been some of the best teachers I've ever had.

*Sincerely,
Jorge Padilla"*

"It is with great joy I've enrolled in Drawing & Painting Academy. I have a particular fondness for Silverpoint. I must develop my drawing skills so I can indulge in that – actually I can't wait to give it a go now and the drawing skills will just have to catch up.

It is with this, that I absolutely thank you, Vladimir and Natalie for your courses online to reach far and wide to anyone wanting training to enhance their creative expressions in a classical contemporary way. You are both exceptional artists but more important you are teachers (another talent). And you are both very kind – beyond recognition or financial gain (wonderful achievements) you are preserving artistic benchmarks that have fallen into disuse – there is hope they won't be totally lost.

*Much appreciation,
Collayne Mills"*
